

## Communication to Gen 3 > Gen 4 Transition

### 1. P1100 to S1200 – Short Input

*Dear Valued Customer,*

*The SolarEdge Commercial Power Optimizer S1200 Short input model has been released.*

*The S-Series models have enhanced features such as-*

- 1. SolarEdge Sense Connect – detects faulty connections and possible malfunctions*
- 2. Simpler Installation – Simplified layout for easier cable connection, preventing the connector from dangling on the roof and being exposed during wet weather.*
- 3. Simpler Design- Supports higher input current than equivalent P series Power Optimizer.*

*Due to supply constraints, to support your order, we will need to replace PN [P1100-4RM4MBT] with PN [S1200-1GM4MBV], we will do our best to meet the original delivery dates.*

*The list price of S1200 is 129€ and it has full compatibility with P1100.*

*The SolarEdge Team*

### 2. P1100 to S1200 – Long Input

*Dear Valued Customer,*

*The SolarEdge Commercial Power Optimizer S1200 Long input model has been released.*

*The S-Series models have enhanced features such as-*

- 4. SolarEdge Sense Connect – detects faulty connections and possible malfunctions*
- 5. Simpler Installation – Simplified layout for easier cable connection, preventing the connector from dangling on the roof and being exposed during wet weather.*
- 6. Simpler Design- Supports higher input current than equivalent P series Power Optimizer.*

*Due to supply constraints, to support your order, we will need to replace PN [P1100-4RMXMBT] with PN [S1200-1GMYMBV], we will do our best to meet the original delivery dates.*
